

ScanMaker 3700

3 Easy Touch Buttons to Copy, Email and Scan in a Snap!

See the Difference—With Speedy and Easy-to-Use Scanning for the Home

Microtek's ScanMaker® 3700 brings high performance color scanning to your Windows 98 PC or Apple iMac. Its three push-buttons allow you to:

- **Copy**- use your scanner and printer as a copier.
- **Email**- send your scanned photos to family and friends via the Internet.
- **Scan**- digitize your photos and artwork.

With the ScanMaker 3700, you can photocopy a recipe for a neighbor; scan your child's kindergarten drawings; or make digital backups of your financial records.

Quality & Convenience

Even with its wide range of features, the ScanMaker 3700 is a snap to set up with a convenient plug-and-play USB connection and the easy-to-install ScanWizard 5 software. This 1200 x 600 dpi, high-resolution scanner is also unbelievably fast. Scan a color photo, and in less than a minute, you're ready to create a masterpiece!

Bundled Software and LightLid 35

The ScanMaker 3700 offers award-winning software for image editing and optical character recognition (OCR).

Using **Adobe PhotoDeluxe**, you can try over 50 guided activities—creating personal greeting cards, calendars, announcements, school and business reports and more. And with the included **LightLid 35**, you can scan 35mm slides to email to friends and family.

Ulead PhotoImpact adds even more image editing power to the mix. You can add a variety of graphic effects like kaleidoscope (great for scrapbooking), watercolor, whirlpool and more to your scanned images.

You can even design background textures and text effects. For text documents, Optical Character Recognition (OCR software) converts your scanned documents into editable text—allowing you to revise old documents without retyping them.

Microtek—The Digital Imaging Company

Microtek was founded in 1980 and has earned a worldwide reputation for manufacturing image capture devices of the highest quality. Microtek specializes in scanners and digital imaging products and has more than 18 years experience devoted to the design and manufacture of desktop scanners.

■ 3 Easy Touch Buttons

Copy, email and scan at the touch of a button

■ Fast USB Connection

Easy set up for Windows 98, 2000 & Me and iMac/G3/G4

■ 42-Bit Color

42-bit hardware captures trillions of colors

■ True 1200 x 600 dpi Optical Resolution

1200 x 1200 dpi through hardware enhancement—capture over 1.4 million pixels per square inch in a single pass

■ ScanWizard 5

Includes two unique control panels—choose between automated and advanced scanning

■ LightLid 35 Included

Great for scanning 35mm slides and filmstrips

MICROTEK

ScanMaker 3700

The easiest way to scan, email and copy — at the touch of a button!

Scan

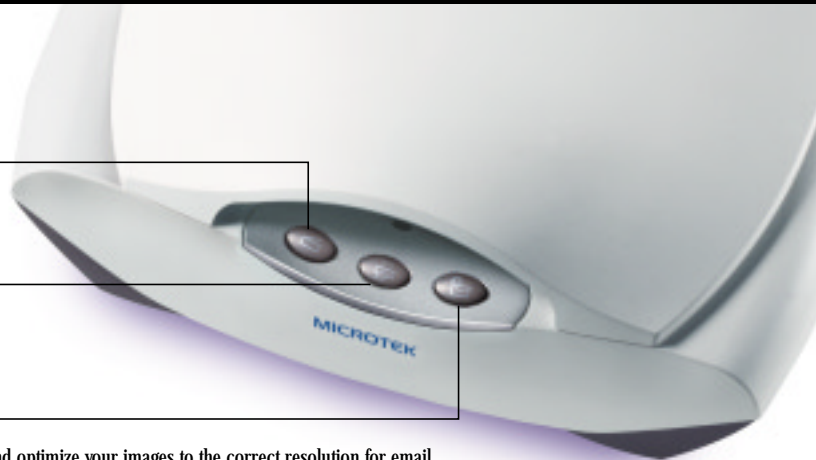

Capture high-resolution images with outstanding quality that can automatically be saved as files or sent to another application for further processing.

Copy

Transform your scanner and desktop printer into an efficient and convenient copy station. Just specify how many copies you want!

Email

Share your images over the Internet! Press this button and the scanner will automatically scan and optimize your images to the correct resolution for email.

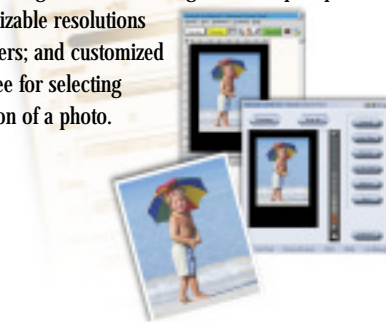

ScanWizard 5 Doubles Your Scanning Power

ScanWizard 5 is the software that transforms the ScanMaker 3700 into a multi-function wonder. Designed specifically for Microtek's newest scanners, it boasts two unique control panels, one for automated, on-the-fly scanning (with pre-set controls), and the other for custom scanning (with advanced settings). ScanWizard 5 doubles your scanner's power—letting you choose the options that best meet your needs.

Using the ScanWizard 5 pre-set control panel involves only placing a photo on the scan bed and pushing the scan button! ScanWizard 5 automatically detects the edges of your photo; determines its size; adjusts its color, brightness and contrast; and scans at the best resolution,

whether for web display, color ink jet printing or faxing. More seasoned scanner users will want to try ScanWizard 5's advanced control panel. This panel offers a wide array of scanning options and features—including batch scanning of multiple photos; customizable resolutions and filters; and customized marquee for selecting a portion of a photo.

FEATURES:

- Step-by-step tutorial
- Automatic transfer of scanned images to printer, email, web browser or image editing software
- Automatic, real-time preview of images
- Automatic edge detection of images
- Support for all popular file formats including JPEG, TIFF, PCX, BMP, PSD
- Customized color schemes
- Batch scan multiple images
- Advanced Image Correction (AIC) tools for enhancing scanned images
- Descreening function (for correcting images scanned from books, magazines, newspapers and other printed materials)
- Layout options for right or left-handed preferences

RESOLUTION

Optical: 1200 x 600 dpi
Interpolated: 9600 x 9600 dpi

DIMENSIONS

20" (L) x 11.4" (W) x 4.6" (H)
510mm (L) x 290mm (W) x 117mm (H)

WEIGHT:

8 lbs/3.6 kg

CCD IMAGE SENSOR

CCD (Charge-Coupled Device) technology

ENVIRONMENT

Operating Temperature:
10°C to 40°C / 50°F to 104°F
Relative Humidity: 20% to 85%

POWER REQUIREMENT

110V

INTERFACE

USB port (Universal Serial Bus)

SCANNING METHOD

Single Pass

LIGHT SOURCE

Cold-cathode lamp

SCANNING MODES

Color, grayscale and black & white in a single scanning pass

BIT DEPTH

42-bit color (approximately 4.39 trillion colors) optimized to 12 bits per RGB channel through Dual Optimization Technology (DOT)

14-Bit Grayscale optimized to 4096 shades of gray through DOT

1-Bit Black & White

IN THE BOX

INCLUDED HARDWARE

- USB Cable
- LightLid™35 Transparency Adapter for 35mm slides and filmstrips
- Power Adapter

INCLUDED SOFTWARE

- Adobe® PhotoDeluxe™
- Adobe® Acrobat® Reader
- Optical Character Recognition (OCR Software)
- Kodak Digital Science™ Color Management
- Microtek® ScanWizard™ 5
- Microtek® Copy, Email and Scan Utilities
- Ulead® PhotoImpact® Bundled Edition (PC)
- Ulead® PhotoImpact Album Bundled Edition (PC)

SYSTEM REQUIREMENTS

- CD-ROM drive (for installing software)
- Color monitor with 24-bit color capability
- 64MB RAM (128MB or more recommended)
- **PC and compatibles**
 - Pentium PC or later with USB port
 - Microsoft Windows 98, 2000 or Me
- **Macintosh and compatibles**
 - iMac or Mac G3/G4 with built-in USB port
 - Mac OS 8.6 through OS 9.x
