

MICROTEK

ScanMaker® 3800

The Complete Digital Imaging Solution for Your Home

Inspiring images, expanding imaginations.

Just Touch a Button to...

- Scan photos & documents
- Make color copies of your favorite photos
- Email photos to family & friends
- Open documents directly into Microsoft® Word®
- Upload your photos to a photo-sharing website

Its Faster!

Beyond the impressive speed of the ScanMaker 3800, you can also take advantage of Microtek's 4-Up™ Scanning to save time when you need to scan multiple photos! You can even choose to have them scanned as separate files! Just put your photos on the scan bed, select your images in the preview window and let ScanWizard 5 handle the rest! With the ScanMaker 3800, you can scan up to 4 photos at a time and get the job done 4 times faster!

And Award Winning too.

"The Microtek ScanMaker 3800 generates crisp scans with well-saturated color and clear details in both print and on-screen images."

— PC World, October 2001

GET THE MICROTEK EDGE

Its Sleek. Its Slim. Its Stylish.

With the new Microtek EDGE Design, you still get the quality and ease-of-use that we're known for, but now you get it in a 25% smaller scanner without sacrificing quality! To achieve a slim profile and a small footprint, some scanners use CIS sensors, commonly found in fax machines. Microtek took the high-quality CCD technology and using EDGE Design made it smaller. Giving you more desk space, and keeping the image quality that you need.
