

ScanMaker V6UPL

**Legal Size Scan Bed
and Dual Ports to
Meet All Your
Scanning Needs!**

Multi-Function, Multi-Purpose, Multi-Location — A Scanner for Home or Business

With the ScanMaker V6UPL, you have choices: USB or Parallel ports; PC or Macintosh platforms; desktop or laptop computers; legal or letter-size imaging; and photo or slide scanning. There's no doubt, the ScanMaker V6UPL is an exceptionally versatile scanner. An added component of that versatility is its transparency adapter (for scanning 35mm slides and filmstrips). With 1200 x 600 dpi optical resolution, the powerful ScanMaker V6UPL can scan small slides and blow them up to postcard-size and larger — and with sharp, clear detail!

Microtek Quality, Microtek Features — Microtek Price

Microtek brings affordable, legal-sized scanning to home users and small businesses—with prices well below other legal-sized scanners. With the ScanMaker V6UPL, you can scan documents as large as 8.5" x 14" such as real estate papers, notes or contracts. The ScanMaker V6UPL uses top-quality materials for its alloy chassis and wide-diameter transport shafts—translating to added stability and superior color registration. Other features include removable FlexScan Lid, dual port connections and a 5,100-element CCD sensor. The ScanMaker V6UPL saves energy and lamps, too. With its smart sleep-mode feature, it turns itself on and off.

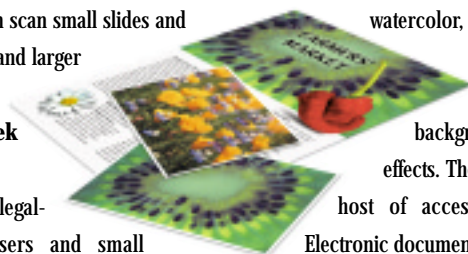

Bundled Software

A generous assortment of top-of-the-line software is included with the ScanMaker V6UPL giving you, for instance, not one but two award-winning image editing software packages. Applications include **Adobe PhotoDeluxe** (featuring over 50 guided projects) and **Ulead PhotoImpact** (featuring a variety of graphics effects, such as kaleidoscope, watercolor, whirlpool, and more).

With PhotoImpact, you can even design

background textures and text effects. The ScanMaker V6UPL has a host of accessory options available.

Electronic document capture and distribution is made easy with a 25-page Automatic Document Feeder. Microtek's ADF-600EL scans multiple page documents automatically and sends them to applications like Microsoft™ Word® or Adobe Acrobat. The LightLid EL 5" x 6" transparency adapter is available to make sure the ScanMaker V6UPL is a powerful 600 dpi scanning tool for the home or office.

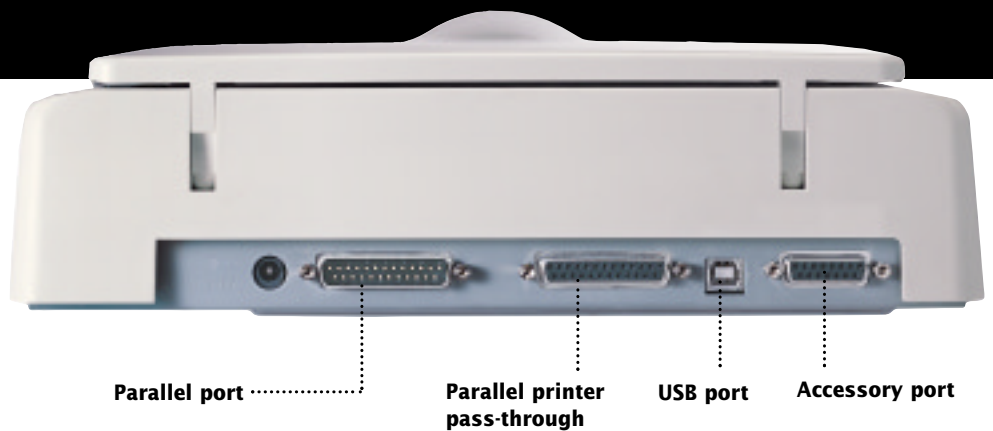

- **USB & Parallel Connections**
Connects to your PC, iMac or Power Mac G3/G4 in a snap
- **Legal-Size Scan Bed**
23% larger scan area than letter-size (A4) scanners
- **Push Button Scanning**
Just press the GO button to start scanning with our new ScanWizard 5 software
- **42-Bit Color**
42-bit hardware captures trillions of colors
- **True 1200 x 600 dpi Optical Resolution**
1200 x 1200 dpi through hardware enhancement—capture over 1.4 million pixels per square inch in a single pass
- **LightLid 35 Included**
Great for scanning 35mm slides and filmstrips

convenience of USB and the
backward compatibility of EPP!*

Enhanced Images, Enhanced Productivity: ScanWizard 5

ScanWizard 5 is the software that transforms the ScanMaker V6UPL into a multi-function wonder. Designed specifically for Microtek's newest scanners, it boasts two unique control panels, one for automated, on-the-fly scanning (with pre-set controls), and the other for custom scanning (with advanced settings). ScanWizard 5 doubles your scanner's power—letting you choose the options that best meet your needs.

In its Standard Control Panel, ScanWizard 5 features an Assistant, a floating toolbar with three virtual buttons. These buttons provide easy access to Copy, Email and Scan to File features. Just place your photo on the scan bed and click the Scan button. ScanWizard 5 automatically detects the edges of your

photo; determines its size; adjusts its color, brightness and contrast; and scans at the best resolution. ScanWizard 5 can then transfer images to your printer (for fast "photocopying"), or to your email (for sharing digital photos with friends and family).

In its Advanced Control Panel, ScanWizard 5 offers a wide array of scanning options and features for more seasoned scanner users.

With the Advanced Controls, you can batch scan multiple photos in a single pass; set custom resolutions; choose from a variety of specialized filters for special effects; or select only a portion of your photo for scanning. ScanWizard 5 gives you a professional palette of tools for even greater functionality and power whatever your scanning needs.

FEATURES:

- Step-by-step tutorial
- Automatic transfer of scanned images to printer, email, web browser or image editing software
- Automatic, real-time preview of images
- Automatic edge detection of images
- Support for all popular file formats including JPEG, TIFF, PCX, BMP, PSD
- Customized color schemes
- Batch scan multiple images
- Advanced Image Correction (AIC) tools for enhancing scanned images
- Descreening function (for correcting images scanned from books, magazines, newspapers and other printed materials)
- Layout options for right or left-handed preferences

IN THE BOX

INCLUDED HARDWARE

- USB Cable
- Parallel Cable
- LightLid™ 35 Transparency Adapter for 35mm slides and filmstrips
- Power Adapter

INCLUDED SOFTWARE

- Adobe® PhotoDeluxe™ (PC/Mac)
- Adobe® Acrobat® Reader (PC/Mac)
- Optical Character Recognition (OCR) (PC/Mac)
- Kodak Digital Science™ Color Mgmt (PC/Mac)
- Microtek® ScanWizard™ 5 (PC/Mac)
- Microtek® Copy, Email and Scan Utilities (PC/Mac)
- Ulead® PhotoImpact® (PC)
- Ulead® PhotoImpact Album (PC)

OPTIONAL ACCESSORIES

- ADF-600EL: 25-page Auto Document Feeder (P/N: 1108-03-490050)
- LightLid™ EL: 5" x 6" Transparency Adapter (P/N: 1108-03-110034)

SYSTEM REQUIREMENTS

- CD-ROM drive (for installing software)
- Color monitor with 24-bit color capability
- **PC and compatibles USB Connection**
 - Pentium PC or later with USB port
 - Microsoft Windows 98, 2000 or Me
 - 64MB RAM (128MB or more recommended)
- **PC and compatibles Parallel Connection**
 - Pentium PC or later
 - Microsoft Windows 95, 98, Me or NT 4.0
 - 32MB RAM (64MB or more recommended)
- **Macintosh and compatibles USB Connection**
 - iMac or Mac G3/G4 with built-in USB port
 - Mac OS 8.6 through OS 9.x
 - 64MB RAM (128MB or more recommended)
